## PROFILE

B.Tech Computer Science Engineering student specializing in Data Science, with strong analytical skills and hands-on experience in Python, web development (HTML, CSS, JavaScript, React), and data visualization using tools like Matplotlib and Power BI.

## EDUCATION

|                           |                         |           |
|---------------------------|-------------------------|-----------|
| B.Tech CSE (Data Science) | SRMCEM, AKTU            | CGPA: 7.0 |
| Intermediate (CBSE)       | Radiant Central Academy | 64.17%    |
| High School               | Anwar Public School     | 62.80%    |

## PROJECTS

### FitByte – AI-Powered Health & Diet Analyser [\[Flutter | Dart | REST API | Android Studio | Firebase\]](#)

- Built a cross-platform mobile app using Flutter & Dart that analyses user health data (age, weight, activity level) and provides personalised AI-driven diet recommendations.
- Integrated REST APIs to fetch real-time nutritional data and connected Firebase for user authentication and cloud-synced progress tracking.
- Designed an interactive dashboard with dynamic charts to visualise calorie intake, macro breakdown, and weekly fitness progress.
- Applied clean UI/UX principles using Figma prototypes, ensuring intuitive navigation and a seamless user experience across Android devices.
- Used Git & GitHub for version control and collaborative development; implemented modular architecture for maintainability.

### Personalized Career Adviser System [\[Python | ML | Scikit-learn | ChatGPT API\]](#)

- Designed and implemented a data-driven career recommendation system providing personalised guidance based on user profiles, academic performance, and skill sets.
- Applied machine learning algorithms (decision trees, clustering, recommendation models) to match individuals with suitable career paths and learning resources.

### Cafe Sales Data Analysis [\[Python | Pandas | Matplotlib | Power BI\]](#)

- Analysed sales data from a café to uncover key business insights using Python, Pandas, and Matplotlib; performed data cleaning, EDA, and visualisations.
- Identified trends in customer behaviour, peak sales periods, and top-selling items; findings helped optimise inventory and improve business performance.

### Personal Portfolio Website [\[HTML | CSS | JavaScript | React\]](#)

- Designed and developed a responsive portfolio website to showcase academic projects, technical skills, and achievements.
- Implemented interactive UI components and optimised performance; integrated GitHub repositories and contact info for a professional online presence.

## TECHNICAL SKILLS

**Languages & Web:** Python, Dart, HTML, CSS, JavaScript, React

**Mobile Development:** Flutter, Android Studio, Firebase, REST API Integration

**UI/UX & Design:** Figma, UI/UX Design, Responsive Design

**Data & Analytics:** Pandas, Matplotlib, Power BI, Tableau, Advanced Excel, SQL

**ML & AI:** Scikit-learn, TensorFlow (basic), Generative AI Tools

**Tools & DevOps:** Git & GitHub, Data Cleaning, Data Visualisation

## CERTIFICATIONS

- Data Science with Machine Learning – SRDT
- Machine Learning Fundamentals
- Python for Data Analysis
